Re: Time Extension for 9 Zinn Rd.

Dear City Council Members,

In July of 2008, The Council passed, by unanimous vote, a sewer Extension on the above subject property.

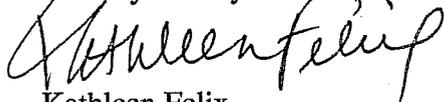

*In October of 2009, an extension was granted as the Engineering had not be completed.*

Engineering was completed and approved by the city in Feb. of 2011.

Since then, I have been diligently pursuing contractors to get an estimate to have the work done. I just got the first estimate yesterday, June 27, 2011.

In looking through my paper work yesterday, I saw that my extension was up May 1, 2011. I am respectfully requesting an extension on the time limit to start this project.

Thank you for your time,

Kathleen Felix
