Re: Reapportionment 2012

Dear Mayor and Council:

At last Monday night's Committee of the Whole session, there were suggestions/questions to which we wish to provide some clarifying or elaborating comments. We would feel remiss if we did not provide you the information you asked about:

First, we have asked the appropriate departments (Engineering/IT) to have the proposed, revised and final reapportionment map included on the City website under both the Registrar's and Legislative Assistant's locations, for ease of access and reference.

Second, a question was raised regarding the impact of the "Voting Precincts". Your full Council packet in April contained the versions of the two ordinances depicting the three (3) new precincts. The voting precinct setup was altered when the Wards and the Assembly Districts overlapped in ways that varied from the last reapportionment in 2002. What this means is that people vote in the same location (i.e. school buildings) every election. In order for everyone to continue to vote in the same location, during state election cycles, precincts are created (i.e. someone in Ward One who is also in the 109th Assembly District would be able to vote for that Assembly candidate. Another person in the same Ward but a different Assembly District (say the 138th) would vote in the same building, for that Assembly candidate.)

The three (3) new "precincts" represent what occurred when two (2) new Assembly Districts were added AND the Wards were reapportioned in 2012. The purpose of having precincts is simply to allow for designation of overlapping local and State regions, to assist in voting patterns and allocation. Feel free to also connect with the Registrar's office for additional detail, as desired. Please call this office with any further questions.

Very truly yours,
