RE: Donation of Website Department of Elderly Services / Aging in Place

Dear Honorable Mayor Mark D. Boughton and members of the City Council:

The City of Danbury's Department of Elderly Services has received a donation from the Peter and Carmen Lucia Buck Foundation, Inc. for the services of SandorMax , a local web designer, to create an easily accessible database of resource and referral information for Danbury seniors, their families and the Danbury community regarding "Aging in Place" services. With Danbury's population of individuals age 65 plus increasing by 31.5% by the year 2020, we feel this will be a very valuable resource for our community. Additionally, the foundation will also donate a "patron registration database" that will replace our current "myseniorcenter.com" system. The new software will increase our ability to analyze data and provide statistics. It will also create a more user-friendly interface for our seniors at Elmwood Hall and eventually on-line. This donation will be in an amount not greater than approximately \$30,000. I ask that the City Council kindly accept this donation at the next meeting.

I am happy to answer any questions and can be reached at the above number.

Thank you.

Respectfully submitted,

Susan M. Tomasio, LCSW
Director, Elderly Services

The department of elderly services for the city of Danbury has been working closely with your foundation for the past three years to develop the Aging in Place Planning (AIP) Council. One of our goals is to enhance the current city of Danbury website to incorporate the work of the AIP Council, specifically, an easily accessible database of resource and referral information for Danbury seniors, their families, and the Danbury community. Additionally, this database would assist the Elmwood Hall senior center to gather demographic information, as well as take us well into the 21st century as we look to meet more of our senior clients on-line, where they continue to spend more and more time.

It is with great respect that I write to you to request the donation of the services of a web designer to help us achieve our shared goal. This would involve a RFP process on the part of the foundation as led by June Renzulli. The benefits of the donation would be immense, allowing our seniors, their families, and the community access to vital senior information 24 hours a day, seven days a week. The information is currently available to be made into a database and we have the resources to commit to keeping up to date. We will measure the outcomes of this project by the utilization of the website.

If you have any further questions regarding my request for this donation, please feel free to contact me at the above number.

Thank you.

Sincerely,

Susan M. Tomasio, LCSW
Director, Elderly Services

Dear Mr. Benoit:

This letter serves as an understanding that the Peter and Carmen Lucia Buck Foundation will donate a website, upon the Foundation's approval of the Department of Elderly Services request, to use as a portal of information and referral of Danbury seniors, their families, and the greater community.

Further, the City of Danbury understands that this software will also have the capacity to gather demographic information and will replace the "myseniorcenter.com" software now in place at the Elmwood Hall Senior Center.

The City of Danbury appreciates the generosity of the foundation and in good faith will make use of this donation.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark D. Boughton".
