RE: City Sewer

Dear Common Council Secretary:

I am a member of the 5th Ward residing at 61 Southern Blvd. The surrounding neighbors and I would like to know how we go about having City Sewer run in our area. There are approximately 13 dwellings on Southern Blvd and Ryders Lane that do not have City Sewer. The current sewer line ends at Cannondale and resumes again on Lincoln Avenue.

It is my understanding that by writing this letter, discussions can begin about the feasibility of having the sewer line installed. We would also like to present the idea of possibly running the sewer line through the front yards rather than having to dig up the roads and upon its completion putting down a sidewalk. This area has very heavy foot traffic due to Tarrywile Park, Immaculate High School and all the area walk-a-thons.

Please feel free to contact me regarding anything I need to do in order to help facilitate this matter.

Best Regards,

Lisa Chirco
