City of Danbury  
155 Deer Hill Avenue  
Danbury, CT 06810

Re: Indian Spring Water Company

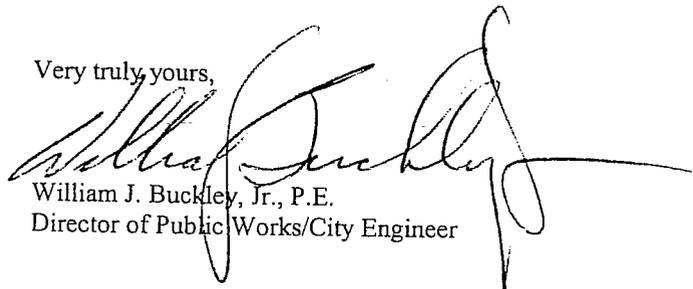

Dear Mayor Boughton and Members of the Common Council:

Recently we were contacted by the owner of the Indian Spring Water Company, Mr. Ron Black. Mr. Black was inquiring as to whether or not the City of Danbury would be interested in acquiring the Indian Spring Water Company. The Indian Spring Water Company is located behind St. Gregory's the Great Church and serves streets such as Jackson Drive, Woodbury Drive, Corn Tassel Road, Indian Spring Road, Monarch Road and Royal Road. In total, the system serves about ninety homes and the customers pay in the vicinity of \$250.00 each per year for water.

I am referring this to you at this time so that you can establish a Common Council subcommittee, if you so desire, for the purpose of evaluating and gaining public input into whether or not you want to consider this acquisition. Over the past years, the City of Danbury has acquired about fifteen of these smaller water systems and, in every case, the acquisition has been a success and the customers of the smaller systems find that the City provides better service at a more affordable rate. We have not yet worked out the details of the possible acquisition and would like your involvement and input into this matter.

As always, I would make myself available to you to answer any questions and certainly will make myself available to attend the Common Council sub-committee meetings to provide you with additional information.

Very truly yours,

William J. Buckley, Jr., P.E.  
Director of Public Works/City Engineer
