Hon. Members of the Common Council  
155 Deer Hill Avenue  
Danbury, CT 06810

Re: Proposed Regulation of Signs on City property

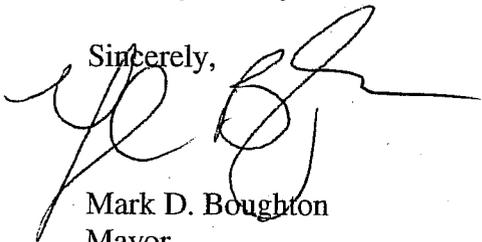

Dear Council Members:

The proliferation and placement of signage upon City properties, including its rights of way is raising a number of concerns that I am proposing we address together. These issues include litter, community blight, traffic obstruction and general intrusion upon the expected and proper use of City property.

I am therefore seeking to appoint a committee to examine and approve a solution(s) to this problem. This may include but is not limited to heightened enforcement of our existing littering and other ordinances through our UNIT division, enacting a new and targeted ordinance, and/or implementing new or modified zoning applications or enforcement in conjunction with the other such remedies.

Thank you for your attention to this important matter.

Sincerely,

Mark D. Boughton  
Mayor
