WILLIAM J. BUCKLEY, JR., P.E.  
DIRECTOR OF PUBLIC WORKS / CITY ENGINEER

December 22, 2004

Honorable Mark D. Boughton  
Common Council ✓  
City of Danbury  
155 Deer Hill Avenue  
Danbury, CT 06810

Dear Mayor Boughton and Common Council Members:

## Padanaram Road Bridge

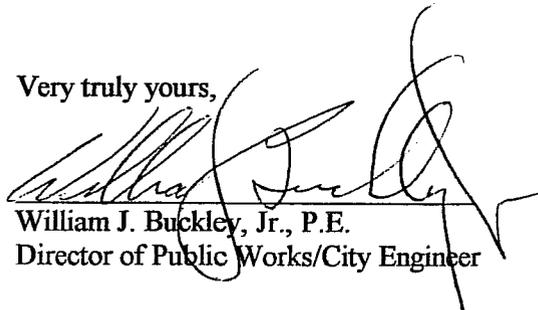

At the December 2004 Common Council meeting, the council authorized Mayor Boughton to apply to the State DOT for Local Bridge Program grant and loan funding for the reconstruction of the Padanaram Road Bridge.

We are in the process of hiring on-call bridge engineering firms to provide the City with design, DOT application and construction services.

It is hereby requested that the Common Council appropriate \$41,316.00 to cover the City's estimated share of the design costs for the project. After the more detailed design is completed, a better construction cost estimate will be developed. At that time, we will inform the Common Council as to what the bridge replacement cost is estimated to be and will request the appropriation of the City's share of said construction costs.

If you have any questions, please give me a call.

Very truly yours,

William J. Buckley, Jr., P.E.  
Director of Public Works/City Engineer
