

ROAD MAINTENANCE REQUEST

We, owners of property abutting Cannondale Drive in Danbury, request that the City of Danbury take over maintenance of the roadway to relieve our hardship. With winter approaching and residents of the road working all different shifts during the 24-hour day and with the need for emergency vehicles to have safe and rapid passage, our most pressing need is for the city to provide snow removal for our road on the same response schedule as the rest of the neighborhood. Thank you for your consideration of this request.
