City of Danbury
Common Council
155 Deer Hill Ave
Danbury, CT 06810

Dear Council Members:

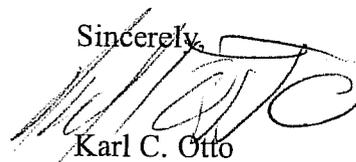

As is the practice with many of the volunteer fire departments in surrounding towns, the King Street Volunteer Fire Company would like to purchase our own General Liability, Management Liability, Property, Auto, and Umbrella Liability insurance from the company that specializes in insurance for volunteer fire departments, VFIS. In order to do this our current coverage must be removed from the City of Danbury CIRMA policies. Please remove King Street from the City's CIRMA policies effective January 1, 2006.

We request that the savings the City receives in return premiums by removing King Street from the CIRMA policies be made available to us to help offset our cost of obtaining the VFIS coverage. If possible, we would request an additional \$3,000 be added to our annual grant to apply towards the cost of this insurance.

With respect to Workers Compensation coverage we would like to remain on the City's policy as VFIS does not offer this coverage.

The King Street Volunteer Fire Company has been and hopes to continue to be a great asset to the City of Danbury by helping meet the emergency service needs of the area. We greatly appreciate the support that we receive from the City of Danbury to achieve our mission.

Sincerely,

Karl C. Otto
President
