**Super NOFA – Homeless Assistance Funds**  
Date: 4/25/06

Once again HUD is making the above funds available to the Danbury Continuum of Care. Our pro rata need share is \$80,500.

The Continuum has notified all community agencies of the funds and is expecting applications by 5/9/06.

The City of Danbury has historically been the lead agency for this funding. Authorization to submit the application for funding is needed.

The application package is due 5/25/06. At this time I cannot provide the Common Council with a budget or a completed application, as they have not yet been submitted by interested agencies.

Please advise as to what can be requested from the Council in lieu of the normal resolution.
