**Program Impact**

This grant will enable the City of Danbury to serve unmet health needs of the community's adolescent population through the provision of quality medical and mental health services. The primary beneficiaries of these services will be students enrolled in Danbury High School and Broadview Middle School.

Further benefits will be achieved through the removal of potential barriers to education, namely unmet health problems, which can interfere or hinder an adolescent's capacity to learn.

This impact will be achieved through the maintenance of an established State licensed outpatient clinic located on the grounds of Danbury High School and Broadview Middle School. Professional medical and mental health care services will be easily accessible to students, conducted in a confidential manner, and provided at no out of pocket cost to students or their family. Outreach to the student population, which will include health promotion and disease prevention strategies, will be carried out by program staff.

**Fiscal Impact**

\*A COLA totaling \$19,330 in funding has been awarded from the State Department of Public Health to support school-based health center services during FY 2006-07.

This grant provides funding for part-time staff positions including nurse practitioner, licensed social workers, and medical assistant. Relevant fringe benefit costs for salaried positions charged to this grant are also included in this budget. Additionally, this grant provides reimbursement for half-time salary and fringe benefits of a full-time City employee who acts as Coordinator for the center. A 2% Administration Fee and 2% Audit Fee are budgeted under this grant.

**Anticipated Grant Lifetime**

Currently, funding for services operated under this grant is available through June 30, 2007.
