Danbury, CT 06810

RE: Renaissance at High Ridge and Westville Commons

Dear Mayor Boughton and Common Council Members:

The Renaissance at High Ridge and the Westville Commons are housing developments being constructed on Scuppo Road. The developments are neighboring properties. Both developments have received Common Council approval to install water main extensions into their sites. In order to improve overall water distribution flow in this area we have requested the developer of the Renaissance at High Ridge to loop their water line into the water line already installed for the Westville Commons development.

We request permission for the Public Utilities Department to donate approximately 250 feet of 8" water pipe and associated appurtenances to allow the water main extension from the Renaissance at High Ridge to be connected to the water main extension installed for the Westville Commons development. We also request permission for the City to accept the water main and water main easements associated with this 250 feet of water line installation across the properties of the Renaissance at High Ridge and Westville Commons.

If you have any questions, please give me a call.

Very truly yours,

David M. Day, P.E.  
Superintendent of Public Utilities
