Re: Traffic and Speeding Study

Dear President Cavo,

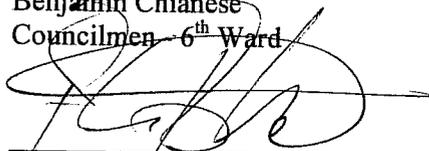

After receiving complaints from constituents who live in the Park Avenue area concerning increasing traffic and dangerous speeding we respectfully request that a Traffic and Speeding study be conducted for the Park Ave. corridor.

Since this is one of the main thoroughfares connecting the downtown to the West Side - and with the increasing development that continues to impact the region - we fear traffic conditions may continue deteriorating as more and more cars and heavy trucks by-pass the highway.

We thank you for your prompt attention to this matter.

Sincerely,
