

CITY OF DANBURY
155 DEER HILL AVENUE
DANBURY, CONNECTICUT 06810

36

COMMON COUNCIL

VIA HAND DELIVERY

January 17, 2007

Members of the Common Council
155 Deer Hill Ave
Danbury, CT 06810

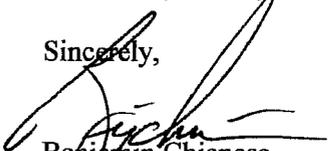

We are writing to request the submission of periodic impact statements from the City's various Public Safety Departments (ie: Fire, Police, EMT Provider and Highway) that addresses the increased development that has occurred throughout our city and how this increase has affected or will affect the various Public Safety Department's ability to meet the safety and welfare needs of our city.

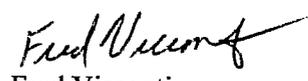

The impact statements should address, but not be limited to the areas such as the Reserve and Proposed Sports area on the west side, BRT projects on Main Street and Crosby, Tiber Oaks on South Street and any other ongoing large development projects that have already been approved or in the planning stages.

As you see by the few areas mentioned that when and if complete these areas combined will bring over 4,000-10,000 (if not more) individuals daily to our city. An impact statement would allow us to keep up with the continuing growing needs and allow the city to continue to address public safety needs in a timely manner.

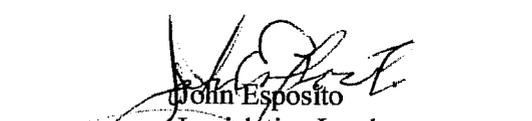

We thank you for your attention to this matter.

Sincerely,

Benjamin Chianese
Councilman - 6th ward

Fred Visconti
Councilman - 5th Ward

Thomas J. Saadi
Democratic Minority Leader

John Esposito
Legislative Leader

Duane Perkins
Councilman - 5th Ward

Paul Rotello
