**AD HOC REPORT
25 Mill Plain Road – Sewer Extension**

Hon. Mark D. Boughton, Mayor
Common Council Members

January 18, 2007

Chairman Mike Calandrino called the meeting to order at 7:00 p.m. Committee members are Bob Riley and myself. In attendance were Farid Khouri, City Engineer, Laszlo L. Pinter, Deputy Corporation Counsel, Dainius Virbickas, from Artel Engineering who represents the petitioner, and a member of the public. Unfortunately John Esposito could not be here tonight.

This ad hoc committee was called to review a request for a sewer extension at 25 Mill Plain Road. This petition came up on September 25th in review and it was voted to be continued because we had several questions that needed to be answered. I understand that we do have a plan now.

Chairman Calandrino asked Mr. Khouri to bring the committee up to date.

Mr. Khouri said this petition is for sewer at 25 Mill Plain Road. We have a map prepared by Artel. The developer wants to build a gas station on Watson and have asked for a sewer extension to meet the requirements. We met with the engineer and our recommendation is to follow the extension from Mill Plain to the development. It will be extended from the existing manhole to about 400 feet past Watson.

Chairman Calandrino said essentially now they follow all 8 steps – Mr. Khouri said this is the first step. Artel will follow the 8 steps – submit the design to engineering.

Mr. Pinter said his office should get a chance to see any documents that may be required as time goes on. The issue last time was what line were they going to use – now it's all settled.

Mr. Riley moved to grant the request for sewer extension at 25 Mill Pain Road and this extension must adhere to the 8 steps for sewer connections as defined by the engineering department. Seconded by Mr. Calandrino. Motion carried unanimously.

Mr. Riley moved to adjourn the meeting. Seconded by Mr. Calandrino. Motion carried unanimously.

Respectfully submitted,

Michael Calandrino, Chairman

Robert Riley
